ME

Over 21 years experience in the London Theatre, Film and TV Industry. Acting since the age of 6 I have been surrounded and inspired by creative and passionate professionals my entire life.

MY OBJECTIVE

I am looking for something long-term and stable, where I can continually develop my own skills. I enjoy my work. It is important to me to find like-minded people in a positive environment where we can create and collaborate together.

MY SKILLS

- HTML
- CSS / SASS
- JAVASCRIPT / TYPESCRIPT
- AJAX / ES6 / REST
- REACT / REDUX
- NODE.JS / EXPRESS
- MONGODB
- POSTGRESQL

I can quickly create and deliver high-quality web-based and mobile applications utilising the latest technologies available. I like to focus on clean, non-repeating code with a strong structure, easily readable, scalable and following most efficient practices.

- CI / CD
- AZURE / AWS / HEROKU
- JEST
- GIT / GITHUB

During my 6 month intensive course at Strive I worked in small teams with other students to create and deploy small application clones such as Spotify, LinkedIn and WhatsApp. We studied software development methodologies, security practices, testing code and upcoming cloud technologies

EDUCATION

April 2021
6 Months Full-Time
Strive School

Full-Stack MERN (Mongo, Express, React, Node), DevOps, OOP, Data Structures and Algorithms
